## THEY WANT ARBITRATION.

**Men on the Strike Do Not Take  
Kindly to the Suggestion of  
the Coal Barons.**

PHILADELPHIA, Pa., Oct. 14.—Dispatches from the anthracite coal regions indicate that the men on strike do not take kindly to the arbitration plan by the presidents of the coal-carrying roads. Notwithstanding the apparent hostility to the plan of settlement, the opinion prevails in all circles in this city that after careful reflection and consideration the sentiment of the strikers who are anxious to return to work will influence a majority of those charged with the handling of the strikers' side of the question.

President Baer of the Reading Railway, whose name heads the list of the signers of the arbitration plan, started for New York this morning in his private car to attend the regular weekly meeting of the corporations he is interested in. It was stated that possibly his car would be sidetracked at some point outside the city and that he would join Mr. Morgan and Mr. Bacon en route from Washington to New York this afternoon.

### CONVENTION MUST ACT.

WILKESBARRE, Pa., Oct. 14.—President Mitchell at noon stated to the Associated Press representative that no statement can be made by the officers of the Union without the consent of the convention.

The situation at the coalfields today remains unchanged with every prospect of it remaining so while the present arbitration plan is under consideration. The soldiers were sent out through the outlying territory as usual today, but they found nothing to do.

### MORGAN AND HIS PARTNER.

WASHINGTON, Oct. 14.—Messrs. J. P. Morgan and Robert Bacon, his partner, breakfasted at the Arlington this morning with Secretary Root. At 10 o'clock Mr. Morgan and Mr. Bacon boarded their special train on

## STRIKE COMMITTEE TELLS OF GOOD WORK OF DR. GEO. PARDEE

The following self-explanatory statement was issued last night by the Republican State Central Committee:

"We, the majority of the members of the Strike Committee of the American Railway Union, commonly called the A. R. U., have read in the newspapers that Dr. George C. Pardee, formerly the Mayor of Oakland, and now the candidate for Governor on the Republican ticket, was against the strikers in the great railroad strike of 1894; that the militia was called out at his instance; that pick handles were used on the members of the Union and their sympathizers, and that Dr. Pardee's attitude throughout the strike was against labor.

"In justice to him and to ourselves, we desire to say that at the commencement of the strike, Dr. George C. Pardee was not in Oakland, as he was then at Castle Craig sick. When he arrived in Oakland the strike was nearly ended. He took no part in calling out

## CAMPAIGN CHAIRMAN SPEAR SAYS PARDEE WILL SWEEP THE STATE

**Majority for State Ticket Will Not be Less Than 15,000--There  
is a Republican Ground Swell in Southern California--  
A Tidal Wave in Humboldt County--Union Labor  
Men Coming Over to Pardee.**

SAN FRANCISCO, Oct. 14.—Charles H. Spear, Chairman of the Republican Campaign Committee, is laboring day and night for the success of the Republican ticket.

He is literally sleeping with Dr. Pardee's fight. He has a bed-room attached to the rooms of the State Committee in the Palace, where he takes a little rest at any old time, but he is busy most of the time night and day, seeing people, answering letters and planning party organization in different parts of the State. He is perfectly assured of Dr. Pardee's election by a large majority.

"My advice from every part of the State indicates the election of the entire Republican ticket headed by Dr. George C. Pardee by a majority of from 15,000 to 18,000," he said this morning. "Some of the nominees will be elected by a much larger majority than that because the Democrats have practically abandoned the rest of their State ticket and are centering their fight wholly upon the Governorship.

"But they can't win. The drift all over the State is towards Pardee, and nothing can prevent his election.

"Conservative reports from Southern California—the region south of the Tehachapi—show that Dr. Pardee's majority in that section will not be less than 12,000 and may reach 15,000.

## WHALEBACK IS A TOTAL LOSS

**STRUCK BY A STEAMER AND  
GOES DOWN IN DEEP  
WATER.**

SAULT STE MARIE, Mich., Oct. 14.—Whaleback barge No. 129, owned by the United States Steel Corporation, was struck by collision with the steamer Mauna Loa, in the gulf on Lake Superior yesterday afternoon. The crew were all rescued by the steamer Andes, which reached here early today. The whaleback went down in deep water and is a total loss.

When thirty miles west-northwest of White Fish Point, the tow line from the Mauna Loa to the barge parted and the barge was sent adrift. While trying to pick up the barge the steamer crashed into it, the steamer's port anchor going through the side of the whaleback. It was seen that the barge could not keep afloat and the crew was safely transferred to the steamer.

Fifteen minutes later the whaleback sank in 125 feet of water.

The lost barge was valued at \$60,000. She had on board some 2,300 tons of ore worth \$10,000 or more.

## POSSE SAVED THE NEGRO

**MOB WAS WAITING TO CATCH  
THE PRISONER AND LYNCH  
HIM.**

NACHODOES, Texas, Oct. 14.—The Sheriff's posse, having in charge Jim Buchanan, the negro accused of assaulting and killing Duncan Hicks, wife and daughter, escaped from the mob late last night and they have disappeared. They boarded a train at Tenenena and started for Nachodoes, but left the train and made a detour, as another mob awaited them at Simpson. They are supposed now to be in the woods in Shelby county. A new mob left San Augustine at midnight. The whole country is aroused. It is hardly possible to get the negro out of the country unless the Governor orders troops to protect him.

"These favorable reports come from all factions of the party. Republicans down there are all united and are standing shoulder to shoulder for the whole Republican ticket. There is no dissension or disaffection.

"In the Republican counties in the San Joaquin Valley the Republicans are all going to vote their ticket, while many Democrats are favorably disposed toward Dr. Pardee. In the Democratic counties Dr. Pardee will get the full Republican vote and will probably make some gains.

"Up in Humboldt county it is all Pardee. The county will give a majority for him of from 1,500 to 1,800. Both the labor papers published in the county are for him, and there is no division in the party ranks.

"In Napa Dr. Pardee will poll the entire Republican strength. I find the party well organized there and in good shape.

"Napa will give the usual party majority and probably a little more. Dr. Pardee will do equally well in Mendocino and will make gains in Sonoma.

## GROVER CLEVELAND TALKS ABOUT FUTURE OF DEMOCRACY

NEW YORK, Oct. 14.—To a representative of the Evening Post, often asked his views in regard to the outlook and duty of the Democracy in the approaching Congressional elections, ex-President Grover Cleveland said:

"It seems to me that if the Democracy is really in earnest it cannot fail largely to increase its representation in the next Congress, but in order to do so I think that there must be a constant and sturdy stand on the things which are the basis of our party. We must be recognized as truly Democratic by those who may be termed veterans, not only recognized as such, but also commending themselves to the hosts of the younger men of our land. Thousands of them await the opportunity to espouse a cause which must appeal to disinterested love of country and which is based upon thoughtful regard of all our people and the safety of the institutions under which we live. To these young men no hope is offered for the realization of their patriotic aspirations except through the conscientious endeavors of the Democratic party.

"If I am at a loss to understand by what process of reasoning the nation has gained a foothold in certain Democratic headquarters, not only that no importance attaches to a Democratic ascendancy in the next House of Representatives, but even that it might be advantageous to party prospects in 1904 for it to continue in its present minority now, I am not alone. I think it is a common-sense view that our best efforts at all times and under all circumstances. Constant vigilance and unrelenting attack are essential to victory. Armies are captured by first driving in the outposts.

"I cannot believe that the bright prospects of the Democracy in the present campaign are to be marred by any lack of hard work and strenuous fighting."

## STRIKERS ARE NOT PLEASED WITH THE NEW PROPOSITION.

quarters in many days dropped in to hear the news. Mr. Mitchell had a

"Speaking without special reference to the statement issued by the coal operators, it is a rule of our organization that no settlement can be made by the officers of the union without the consent of a delegate convention."

In reply to another question as to whether the Shamokin Convention which formulated the demands made to the operators or the Hazleton convention which made the strike permanent had given him this consent he said:

"No."

The three district presidents are on their way here. President Mitchell will immediately go into conference with them on the new offer. The miners' chief refused to say whether a convention call would be considered today, or where or when such a meeting if held, will take place. He also declined to say how long it would take to get the delegates together. Mr. Mitchell continues to decline to answer all questions as to whether he is for the Hazleton operators' plan as a whole or in part. He has not received official notification of the operators' desire to arbitrate. There were lively scenes about strike headquarters today. Mine workers and leaders who have not been near head-

"There has been a good deal of apathy in Sacramento, but the situation there is brightening up to a degree that pleases the Republican managers there.

"The Republicans are getting into line, and there is every reason to believe they will give a good account of themselves on election day.

"Here in San Francisco the situation is improving every day. A great many Union labor men are visiting the headquarters and offering their services to aid Dr. Pardee.

"They come here daily to assure us of their loyalty to the Republican ticket and to Dr. Pardee in particular. They are realizing that the attempt to prejudice Dr. Pardee in the eyes of the workmen is only a Democratic ruse to get the Union labor vote for Lane. They do not propose to be gulled by any such transparent trick, and in consequence sentiment among the laboring men is veering rapidly around to Dr. Pardee, who is a friend to all classes.

"Last night the Republican County Committee of eighteen members met with a special committee of eighteen appointed by Chairman Riordan and mapped out a plan to organize thoroughly in every district in the city. There was a full attendance and much enthusiasm was shown. The reports showed that everything is favorable

number of visitors, among them Lewis Hammerling, who acted as a missionary between Mr. Mitchell and Senators Quay and Penrose in their conferences with the coal road presidents in New York last week. Mr. Hammerling came in hurriedly, stayed but a short time and left without giving information to any one. It is evident that he carried a message to Mr. Mitchell from some one.

One of the local leaders, who came in from the outlying territory, made this statement in the hotel lobby:

"The men as a rule are angry at the proposition made by the operators. They say they would rather go down to straight defeat than surrender to the operators on the arbitration plan they propose."

This, however, must not be taken as the sentiment of all the men. There are many who see a ray of hope in the situation. A disposition is shown among many to trust to the good offices of

## JUDGMENT FOR OVER MILLION.

**San Francisco Prelate Wins a  
Signal Victory in World's  
Arbitration Court.**

**THE HAGUE Oct. 14.—The Arbitration Court in the  
Plus Fund case has condemned Mexico to pay the  
United States \$1,420,000 in Mexican currency.  
The decision of the Court was unanimous.**

The Plus Fund has been a bone of contention between the Catholics of the United States and Mexico ever since the Mexican War. When the movement to Christianize the natives of the western and southern portions of North America was inaugurated in the Seventeenth Century millions of dollars were donated to the cause by Spanish nobles, Spaniards of wealth and even the Court of Spain.

Princes and Princesses, and other members of the royalty sold their jewels and many persons in lower stations of life denied themselves the misadventures of the court of Spain. This fund was deposited with the Court of Spain to be used exclusively for the education and Christianization of the Indians.

When Mexico became a government independent of Spain it became the custodian of the money and has been paying the interest to the church of that country, regardless of the claims of the Jesuits of the United States, for whom it was originally intended.

It was Archbishop Riordan's contention that a portion of the interest should be paid to him, as the Archbishop of the Diocese and it was through him that the court of arbitration was instituted. This disburse, however, will not receive the entire amount

# BERKELEY and STATE UNIVERSITY

Chinese Students do Freshman Game Will not Like Work at the State University. be Played on Campus Have a Running on the Campus.

## BRANCH OFFICE, 2211 STANFORD PLACE

BERKELEY, Oct. 14.—As a result of some disaffection, fanned or otherwise, at the work given in the State University, three Chinese students, Yen, Wang and Chang, who were supported at the university by their Government, left last week for Harvard, where they will continue their studies in law and political science. None of the students have graduated from the university, hence all will have to enroll in Harvard as undergraduate students.

The three students petitioned their Government some time ago that they be permitted to change from California to Harvard. Leave to make the desired change was granted last week, and the men left immediately for their new home.

The cause for their disaffection with the University of California is explained in the following manner by one who is acquainted with the workings of the Oriental mind. "Hitherto," he said, "the Chinese students who have successfully pursued their studies in America have graduated either at Yale or Harvard, and hence to carry on work at any other university seems to be an unjustifiable innovation. So adverse are the Chinese to change that what the pioneer has successfully accomplished in any place or country must be exactly imitated by those who follow after. Hence the University of California with all of its facilities and advantages has failed to retain these three promising Chinese students."

## FRESHMAN GAME WILL BE PLAYED IN BERKELEY.

BERKELEY, Oct. 14.—At a meeting held between Graduate Manager Ezra Decoto of the University of California and Manager J. S. Edwards of Stanford, it was agreed to play the intercollegiate freshman game on next Saturday on the campus of the State University. Through a delay in securing the lease on the grounds at Sixth avenue and California streets in San Francisco it could not be moved to that place, and the game will be played on the campus of the State University.

## SKULL AND KEYS RUNNING TOMORROW ON CAMPUS.

BERKELEY, Oct. 14.—The Skull and Keys, the junior and senior interfraternity society of the State University will hold its annual initiation on the campus tomorrow. The "running" of the Skull and Keys is one of the events in the college year and will draw a big crowd. Some of the most prominent society men of the fraternities will be initiated. The names are not announced until the morning of the initiation.

The fun on the campus will begin at 10 o'clock when the initiates will be compelled to spin tops, fly kites, play marbles and such like games back and forth from their recitations. The men at this time will be arrayed in white ducks and dress coats. At 4 o'clock the initiates, arrayed in fantastic garb, will give a vaudeville show in front of the bleachers, each initiate being compelled to do a turn.

## DESCRIBES PEACH TREE BORER OF SANTA CLARA.

BERKELEY, Oct. 14.—The Agricultural Department of the State University has issued a bulletin dealing with the California peach-tree borer, and the proper method of destroying the pest. The bulletin which was prepared by Professor C. W. Woodworth will be of particular importance to the orchardists of the Santa Clara Valley, in that that valley is the only one of the State in which the insect does any serious injury.

In the opinion of Professor Woodworth it is very probable that the insect will spread to affect other regions. He says:

"While at the present time the insect is thus extremely local in its distribution, there is every reason to expect

THE GRAND REVIEW. TALCOTT AND KELLEY.

In 1866 the annual reunion of the Grand Army of the Republic was held in San Francisco. It is to be held there again next year. Between the two gatherings will only be a distance of seventeen years, but what a gulf it seems when the passing time is measured by the missing at roll call. The Grand Army is but a shadow of its former self.

Since the last review in San Francisco the Grand Army has lost its most distinguished. At that memorable gathering was to be seen John A. Logan, William Tecumseh Sherman, Henry W. Slocum and a host of other heroes of the Civil War. How few now remain. We can tell something of the thinning out of the files by the way the rank has answered to death's marching orders.

This year the Grand Army assembled in Washington, and a gifted writer has contrasted the thin battalions of gray, bent men that marched through the nation's capital with the war worn but victorious legions that marched in grand review before the President and the great civil and military dignitaries of the nation with the intent to show how fast the Grand Army is dissolving to never again assemble till the last trump shall summon earth's battalions to the final review. But it seems that a false note was struck in the stirring description of the Grand Review of 1865.

It was pictured as a joyous triumphant host, flushed with victory, keeping step gaily in bright uniforms to music tuned in happiest strains. There was indeed Johnny marching home, from the wars free from care and sorrow, glad that the battle was won and happy at the thought of the good times coming with the old folks at home and the girl he left behind him.

That is not a correct conception of the grand review at the close of the War of the Rebellion. There was deep thankfulness that the desolating strife was over at last and that the Union had been preserved, but the spirit that animated the army was not one of gaiety. On the uniforms of thousands who marched in that review were the stains of march and battle. Their arms were bright, but their faces were sad and their uniforms faded. The host was oppressed with grief. The crape on every right arm bore testimony of the grief that was felt for the dead who lay mouldering on a hundred battlefields. Crape was on every flag. The banners did not flaunt gaily in the wind, but the mourning emblems on each faded battleflag, tattered and torn in deadly conflict, told its own story of sorrow. Many an eye was suffused with tears as the thoughts ran back to where companions in arms were sleeping in the bosom of the dead.

Joy in the presence of the living was overshadowed by the sad memory of the fallen. Women broke into sobs as the decorated ranks swept by, and they could only see the remnants of the war torn regiments through blinding tears. Peace had come again, but the sight of the returning brave brought keener and sadder remembrance of the unremitting dead.

The men who marched in the Grand Review were nearly all young. The great majority were under 30. More than half were less than 25 years of age. It is thirty-seven years since that memorable occasion, and the gaps grow larger and the ranks thinner at each successive meeting. When the next review comes off the survivors will have much the foreboding feeling that animated the broken remains of Napoleon's proud battalions that escaped the frozen wastes of Russia. But they carry a nation's love and reverence. The thinner and grayer they become, the dearer they are to the American people.

A San Francisco paper speaks of "Mary Ball" as the sister of Martha Washington. This denotes a singular confusion of ideas. Mary Ball was the mother of George Washington, while Martha Washington was his wife. Her maiden name was Martha Dandridge, but she was the widow Curtis when the Father of His Country courted and married her. Not long ago a leading journal alluded to a Miss Custis as a great-grand niece of Washington. The lady in question is a collateral relation of George Washington's stepson, but is no blood connection whatever of the Washington family.

The voters of Alameda county should to their duty by their home candidate or Governor. The eyes of the State are on Alameda, and the banner Republican county must make good professions made in convention. Dr. Pardee's majority in this county should break all records.

Two Supervisors are to be elected in Alameda county next month, and it is important that the voters should carefully scan the list of candidates presented for the positions, for the office of Supervisor is one of great responsibility and varied functions. The Supervisors control the county finances, fix the tax levies, manage such public institutions as the County Infirmary and the Receiving Hospital, and direct all road and bridge work. They are clothed with large discretionary powers, being both an executive and a legislative body.

The Republican party presents two unexceptionable candidates for Supervisors in J. R. Talcott and Joseph M. Kelley. Both are exceptionally well qualified to perform the duties of Supervisor, and both have the confidence and esteem of the community. They can always be relied on to guard the interests of the tax payers; and to carefully moderate expenditures.

Mr. Talcott has sat in the Board for the past eight years, and his record is that of an upright, clear headed business man, who has never been found wanting when it came to promote the county's welfare. He is a strong advocate of road and bridge improvements, and insists upon economy in the management of the county's affairs. He has been one of the most progressive and energetic men in the Board, and the public has placed a firm reliance on Mr. Talcott's shrewd, practical, common sense and his resolute purpose to have everything done properly.

Mr. Kelley is a candidate for Supervisor for the first time, but he is well known nevertheless. His fitness will be conceded by all. Mr. Kelley is one of our most active and enterprising business men. By his own efforts and sagacity he has built up a prosperous business concern. He sat in the Assembly two terms, and at the Capital showed himself to be a sensible, useful and industrious legislator. He will keep the same shrewd eye on the affairs of the county that he does in the management of his personal concerns. The county business will be well managed by him.

It should not be necessary to tell the people what kind of a man is needed in the Board of Supervisors, but if there be any who are not fully informed on the subject they can gain all the necessary knowledge by inquiring about Mr. Talcott and Mr. Kelley.

**MINERS WELCOME PARDEE.**

The reception Dr. George C. Pardee is receiving in the mining counties is no less flattering and enthusiastic than was accorded him in the Sacramento and San Joaquin Valleys. The miners constitute an intelligent body of men, and Dr. Pardee's record and personality make him attractive to them. At Angels Camp, the mining town made famous by Bret Harte, the men from the mines greeted him as a friend. Their cheers showed for whom their votes would be cast next month, and at the same time disclosed the hollowiness of the extravagant boasts made by Lane's managers.

The mining counties constitute the last of the grand divisions of the State for Dr. Pardee to canvass. He has been in Southern California and the warmth of his welcome testifies to his great popularity there. His trip through the San Joaquin Valley was abuzz with Republican enthusiasm. In southern coast counties the voters assembled to hear him speak and cheered him with enthusiasm. The tremendous meetings that greeted him in San Francisco are proof that the metropolis will give him a splendid vote.

Dr. Pardee has not yet been in the northern coast counties, but all accounts from there indicate that he will run very strong in that section. The farmers, stockmen and lumbermen are his friends and admirers, and they will give him a handsome majority in every coast county north of San Francisco.

Thus it will be seen that there is not a break in the Republican line from one end of the State to the other. When Alameda's enormous majority is counted in with the vote of the other sections of the State, it hardly seems possible to doubt Dr. Pardee's election by an unprecedented majority.

No one pretends to deny that the Republican County ticket is a good one throughout. No one claims that there is a single nominee on it who is not a competent man of good character. In no quarter is it asserted that the affairs of the county would not be well managed in the hands of the Republican candidates. Why, then, should they not all be elected in this Republican county?

For six years John Mitchell has faithfully served Alameda county as Supervisor. He will serve it equally well as Assessor. His record and his personal character are without blemish. No apologies have to be offered for either. He has no blunders to explain.

James E. Barber is going to be re-elected by a huge majority because the people appreciate his fine business methods and his courteous treatment of tax payers.

John J. Allen is a worthy successor to a long line of capable District Attorneys, and the voters recognize this fact.

Small wonder is it that the ruff has advanced in popularity until today it holds first place in Milady's autumnal accessories. Its furrows add a touch of the feminine to the severe tailor suit; it gives softness of outline and fresh charm to the face as does no other bit of neckwear.

Black, white, black with white, and white with black are the colors which have chiefest vogue, while the most popular materials are chiffon, mousseline, liberty silk and chiffon and nets, trimmed with lace, ribbons, fur and feathers. Later in the week the final arrangements will be completed and the patronesses, etc., will be announced.

**Ruffs**  
Autumn's Most Popular Neckwear

Small wonder is it that the ruff has advanced in popularity until today it holds first place in Milady's autumnal accessories. Its furrows add a touch of the feminine to the severe tailor suit; it gives softness of outline and fresh charm to the face as does no other bit of neckwear.

Black, white, black with white, and white with black are the colors which have chiefest vogue, while the most popular materials are chiffon, mousseline, liberty silk and chiffon and nets, trimmed with lace, ribbons, fur and feathers. Over two hundred styles await your inspection at the Taft & Pennoyer store. Prices range from \$2.25 to \$32.50

# MINERS CHEER FOR DR. PARDEE

## REPUBLICAN CANDIDATE FOR GOVERNOR WILL GET A ROUSING VOTE IN CALAVERAS COUNTY.

ANGELS CAMP, Oct. 14.—The old mining town of Angels Camp was filled last night with people from the surrounding country, who came to attend the Republican rally and hear George C. Pardee. All the hotels were crowded and cots were delegated as couches by scores of visitors.

The whole population of the town was out on Main street last night to see the Republican standard bearer. He was welcomed here with the hearty cheering that is characteristic of mining men, and the cheers given for him were vigorous.

Leading Republicans met him at the depot with a band last evening when he arrived from Sonoma, and after he had ridden a torchlight procession took place. The hall where he spoke was packed with an enthusiastic audience. The hall was handsomely decorated with the national colors, various sorts of greenery and flowers and pictures of McKinley, Roosevelt and Pardee.

Harry R. Barden, chairman of the County Committee, introduced Alex Brown, member of the Board of Equalization, as presiding officer. Brown said: "Four years ago the Calaveras delegation seconded Dr. Pardee's nomination in the Republican State Convention and would have been with him to the finish in the gubernatorial race. Once more the eight delegates of Calaveras were for him in the convention this year. They seconded his nomination and stayed with him from the beginning to the end of the balloting. It is unnecessary to say that he feels very friendly to our country. We have been with his band wagon all along the line, and will be with it when he is elected Governor."

Brown, who has been re-nominated for Equalizer, spoke concerning his own official acts, and in closing predicted that Calaveras would give Pardee a larger majority than any Governor.

# WHEN STRIKE IS AT AN END

## THOUSANDS OF MEN WILL GO BACK TO WORK AT ONCE.

NEW YORK, Oct. 14.—When the miners' strike shall have been officially declared at an end, the full force of 15,000 men will report for duty within twenty-four hours, says a World dispatch from Wilkes-Barre, Pa.

Seventy-five thousand tons of coal can be mined, it is believed, and be ready for shipment in forty-eight hours, and the amount increased to 100,000 or 125,000 tons a day at the end of a week. It can be moved to New York and other Atlantic cities in thirty-six hours from the time it is brought from the mines.

A fact that seems to indicate preparation on the part of the coal companies to transport coal in large quantities is the arrival at coal shipping centers of an increased number of cars.

# CITY COUNCIL PASSES TAX LEVY ORDINANCE

## RATE FOR ENSUING YEAR IS FIXED AT \$1.26—SPECIAL HIGH SCHOOL FUND CAUSES DISCUSSION.

At the meeting of the City Council last night, the tax-levy for the fiscal year was established at \$1.26. All the members of the Council present voted in the affirmative save Mr. Dornin, who voted in the negative.

Mr. Dornin rose to a question of privilege. He stated that the Council was in a dilemma. Mr. Schaffer asked what he meant by a dilemma.

Mr. Dornin said it was the necessity of voting for an ordinance which he considered illegal. Mr. Schaffer said that if Mr. Dornin had taken into consideration the fact that the city was in a better financial condition now than it ever was, and that the levy was not a tax on the city, but a tax on the property, he would not have been so much troubled.

"The man," he remarked, "who stands before a crowd and promises all sorts of things usually forgets his promises as quickly as he makes them. I am going to give the people the very best administration I can and that is all any man can do."

He praised Lane as an honorable gentleman, but remarked that he could not be persuaded to discuss the Democratic State platform on which he stands. Pardee ended with: "If you think I'm the kind of man you want for Governor, vote for me, and if you don't think so, don't vote for me." He was again applauded.

Dean E. McKinley delivered the closing speech, after which cheers were given for Pardee and the rest of the Republican ticket.

Before leaving Tuolumne county yesterday Pardee visited Columbia where he met many men who knew him years ago, and was introduced to the other residents, on whom his appearance and talk produced a very favorable impression.

United States Marshal Shine, who has campaigned through the mining counties in past years and is well known in this part of the State, is now accompanying Pardee in his travels.

# OPERATION ON GEO. CROCKER

## TROUBLED WITH AN ULCERATED TOOTH.

NEW YORK, Oct. 14.—George Crocker, the California millionaire, who arrived on October 8th from London, where he had been ill from blood poisoning caused by an ulcerated tooth, has undergone an operation at the Waldorf-Astoria Hotel in this city. He is reported to be resting comfortably.

The operation was necessitated by an abscess which formed on his face and the outcome of the blood poisoning from which he suffered in London. This is the third time Mr. Crocker has been in the hands of the surgeons since the tooth became ulcerated.

Amelia Calberg has applied for letters of administration on the estate of the late Louisa Schimmelpenninck, who died in this city Sept. 20th, leaving property valued at \$3400.

drants. I believe that of this amount over \$40,000 belongs to the city, and that the remainder, which is the Contra Costa Water Company's right to it, either in law or equity, and the most desperate efforts should be made to save it from falling into the hands of the water company.

"For the foregoing reasons, if for no others, I will not be a party to the movement to tax the people for 'rental of hydrants' and to levy an illegal special tax upon the city for the use of the machinery and the city's employees as a collection bureau in the interest of the Contra Costa Water Company."

Mr. Dornin said that Mr. Dornin's paper had been really cleverly prepared and contained a great deal of information on a very important subject. He did not, however, see what good it would do the city. The proper time to present the paper was when the water rate was being fixed. A majority of the Council had fixed the rates the way they had been fixed, and it required a great deal of money to meet the water bills, which were heavy. In fixing the levy they had found that a great many improvements had to be made, and they had been obliged to take away the demand of the Board of Education for support of the High School and make it a special tax. He deplored the attack which had been made on the levy. He did not think the people would take any part in an effort to make it appear that the levy was illegal. It would put the city in a very bad position. The departments could not be operated, schools would have to close and they would find themselves in a bad condition indeed. The people would be obliged to pay the levy. If not, they would be at the polls next spring. The levy was the result of joint labor and the majority of the people would sustain it.

Mr. Dornin said he had no apology to make. He had considered the matter and could not vote for the ordinance. Mr. Fitzgerald said that while he was not satisfied with all the features of the ordinance, at the same time he felt impelled to vote for it. He said that the ordinance was a very good one, and that the people would be benefited by it. He said that the ordinance was a very good one, and that the people would be benefited by it.

# CITY MAY HAVE CREMATORY

BOYER INTRODUCES AN ORDINANCE THAT MAY SOLVE THE PROBLEM.

At the meeting of the City Council last night all the members were present save Mr. Cadman.

PETITIONS. Petitions and communications were disposed of as follows:

From H. Brune for a sidewalk on Third avenue, from Twelfth street to Ninth street. Street committee.

From the Board of Health, asking for a conference with the Council on the matter of a hospital for contagious diseases. Filed.

From Senator Perkins, acknowledging the receipt of a resolution of the Council regarding the deepening of the estuary. Filed.

From L. Dergen for a sewer in East Nineteenth street, from 145 feet east of Tenth avenue to Eleventh avenue. Street committee.

RESOLUTIONS. Resolutions were disposed of as follows:

Giving permission to Everett J. Brown to build a sidewalk elevator on the north side of Ninth street, 20 feet west of Broadway. Granted.

Authorizing the Board of Health to replace the old wooden box sewer north of the northern side of East Fourteenth street, to a point 200 feet north of said line, at a cost not to exceed \$499. Adopted.

Authorizing the Board of Public Works to construct a box culvert one foot east of the curb line of Adelphi street, 750 feet north of Temescal Creek, to a point 1125 feet north of said creek, at a cost not to exceed \$499. Adopted.

ORDINANCES. An ordinance granting W. A. Beasley a telephone franchise was read and referred to the ordinance and judiciary committee.

An ordinance providing for the erection of a garbage crematory was read and referred to the ordinance and judiciary committee. It provides that the crematory be a Dixon steel furnace at a cost of not to exceed \$35,000. At the end of twenty years the furnace and fixtures are to become the property of the city. During each of those years the company is to pay Oakland \$1,750 and to have the privilege of collecting and burning garbage, etc., at certain rates according to quantity.

TERMINAL RAILROAD. On motion of Mr. Cuvellier, the application of the San Francisco and Oakland Terminal and Ferry Railroad was referred to the committee of the whole.

LIQUOR LICENSES. Liquor licenses were granted as follows: T. H. Scheiding and A. M. Holman, 840 Broadway; T. F. Hayes, Fourteenth and Broadway; H. Windmuller, 350 Twelfth street; J. M. Heinbold, 542 Webster street; H. Harst, 1920 Broadway; Eugene Mercer, 874 Broadway.

TO CHANGE GRADES. The ordinance changing the grades on Telegraph avenue from Fifty-second street to the northern boundary of the city was finally passed.

The ordinance changing grades on San Pablo avenue from Alcatraz avenue to a point 400 feet south of Stanford avenue was passed to print. The Council then took a recess of thirty minutes to allow the committee of the whole to meet.

When the Council met again the proposition of H. N. Morse and others against the Eighth avenue outlet sewer was read and laid over.

GARBAGE MATTERS. A protest against granting an exclusive franchise to any corporation for the removal of garbage from the city was read from Local Council No. 35, Carpenters and Joiners of America.

CONTRACTS are let for street work in the W. M. BUTTERS' TRACT, on San Pablo Electric car line, near the New Ferry Line to San Francisco.

Prices are just the same—from \$260 to \$650 each, and on easy terms. Don't overlook this opportunity to secure a home site that will be worth much more in the near future.

OLD SHIP HAS BEEN FOUND. It set forth that there were already too many in the city and that, if the people could not legally vote for bonds building a crematory, then the Council could submit to the people a proposition to amend the city charter. The motion was signed by 600 members of the union and endorsed by 700 members of the Federation of Trades. The protest, as well as the applications of C. P. Wagner, W. H. Friend and the Pacific Steel Shell Incineratory was referred to the ordinance and judiciary committee.
